

QUALITY, HEALTH, SAFETY & ENVIRONMENTAL POLICY

S.K.M Air Conditioning LLC understands the importance and benefits of establishing, implementing and maintaining an effective Integrated Management System with reference to the latest version of ISO 9001 Quality Management system, a safe working environment in accordance with ISO 14001 and ISO 45001 requirements as part of the company's daily operations in the field of design and manufacture of Heating, Ventilation, Refrigeration and Air-Conditioning Equipment.

All SKM employees are committed to protecting themselves, their colleagues and the environment in which we live.

SKM strategy is demonstrated through the following commitments:

- Maintain customer satisfaction and continual improvement in business development & market growth
- Provide the necessary resources for an effective QHSE system.
- Communicate the related policies and procedures to internal & external interested parties for the importance of full implementation and compliance.
- Development of QHSE objectives, targets and programs for product and process improvements.
- Protect the environment, including prevention of pollution and other commitments relevant to the company's QHSE system.
- Operate the company in a safe working environment to eliminate the hazard, reduce risk and prevent injury & ill health along with the consultation and participation of workers.
- Comply with relevant legal, contractual and other related QHSE requirements.
- Assess, control and provide preventive measures to eliminate and mitigate the HSE impacts of the company's activities.

Mr. Mohamed Jamal El Adl
(Deputy Managing Director)
